

## GOVERNOR PROCLAIMS HOLIDAY FOR BANKS

### WILL BE RENEWED FROM DAY TO DAY

Closing of San Francisco Trust Company Yesterday Assigned as Cause For Fearing Run on Financial Institutions.

### CANNOT GET ENOUGH MONEY FROM EAST

SACRAMENTO, October 30.—At 5:40 p. m. Governor Gillett telegraphed from Eureka to Private Secretary Cooper that tomorrow will be declared a legal holiday by proclamation and that like proclamations will follow each day indefinitely until confidence, in case it be shaken by the failure of the California State Deposit and Trust Company bank of San Francisco, shall be restored. The proclamation will be formally issued in the morning before banking hours.

SACRAMENTO, October 30.—Following telegraphic instructions sent by Governor Gillett from Eureka to his private secretary, E. C. Cooper, a proclamation was issued from Governor Gillett's office tonight declaring tomorrow a legal holiday. In his telegram to Mr. Cooper, Governor Gillett said:

"Issue proclamation declaring a holiday from day to day, commencing with tomorrow, until money matters in the East get better."

In the proclamation issued tonight the following reasons are given for its issuance:

"Whereas, unsettled financial conditions prevail in many of the states of this union and have extended to the state of California; and

"Whereas, it appears that balances due from banks of Eastern states are not being paid to the banks of this state; and

"Whereas, it further appears that this condition has resulted in a temporary lessening of the source of supply of money to meet the ordinary current payments due from California banks; and that coupled thereto there has arisen an extraordinary condition due to the withdrawal of deposits from such banks; and

"Whereas, it appears that such conditions have already resulted in the temporary embarrassment of one of our largest financial institutions and unless restrained will be followed by the retirement from business of other banks and will most seriously affect the financial integrity of our state and entail enormous losses upon the depositors in such banks;

"Now, therefore, in order that our financial integrity may be preserved, confidence regained, financial panic averted and the depositors protected from the loss of their deposits in whole or in part, I, J. N. Gillett, governor of the state of California, by virtue of the authority vested in me by law, do hereby appoint, designate and proclaim Thursday, the 31st day of October, 1907, as a public holiday."

### CALIFORNIA SAFE DEPOSIT AND TRUST COMPANY CLOSES DOORS

SAN FRANCISCO, Oct. 30.—The bank of the California Safe Deposit and Trust company closed its doors shortly before 2:30 this afternoon when the following notice was posted on its doors:

"Not being a member of the San Francisco Clearing House and not being able to obtain clearing house certificates or coin from the east we deem it our duty to our depositors to suspend temporarily."

J. DALZELL BROWN, Manager.

SAN FRANCISCO, Oct. 30.—The officials of the California Safe Deposit and Trust company, which closed its doors today, tonight issued the following statement:

"The California Safe Deposit and Trust company has temporarily suspended. This action was taken because of the small amount of money in circulation, and because the bank, not being a member of the clearing house, could not obtain clearing house certificates to tide over the existing conditions. The bank is perfectly solvent and is making arrangements in the east for assistance, which it confidently expects to obtain. The bank will undoubtedly open its doors within a few days. All of the depositors may be assured that they will be paid in full."

J. Dalzell Brown, the bank's manager, said the officials were unwilling to make any further statement of the bank's affairs until after the state bank commissioners have made their examination and issue their report. They will begin the investigation tomorrow.

**Banks Will Remain Open.**

The proclamation by the governor of a holiday will not prevent the opening tomorrow morning of such banks as desire to accept deposits and cash checks, and it is generally thought tonight that not all of the eastern banks in the clearing house nor all of the trust companies and savings

### ACTION TO PROTECT UNION PACIFIC BONDS

NEW YORK, Oct. 30.—Upon the call of President Harriman, a meeting of the board of directors of the Union Pacific railroad was held today.

At his suggestion the question was considered of so placing the securities of other than the Union Pacific railroad that the beneficial interest therein should be secured to the Union Pacific stockholders and their interests be protected. A committee was appointed to take the matter up in conjunction with the executive committee.

When a plan is decided upon, it is intended to submit it to the stockholders for approval.

The full committee is as follows: E. H. Harriman, Henry C. Frick, Marvin Hughitt, R. S. Lovett, James Stillman, Oliver Ames, P. A. Valentine and Robert Goebel.

### WANTS \$100,000 FOR TRAIN INJURIES

SAN JOSE, Oct. 30.—Edward H. Stoldt today brought action against the Southern Pacific company for \$100,000, alleged damages received in the wreck of the train at Wrights at a point near Los Gatos last Christmas.

### Tidewater Line Complete.

LOS ANGELES, Oct. 30.—The last rail on the Tidewater and Tidewater railroad was laid today at Gold Center, Nev., according to advices received at the headquarters of the company in this city. This completes the "direct line" between the Tidewater and Goldfield, Nev., and affords direct connection with Goldfield and Tonopah. It was announced that regular freight service would be inaugurated on November 25th, and that passenger service would begin December 1.

### AT WORK TO GET THE ADAMS JURY

SPOKANE, Wash., Oct. 30.—The work of securing jurors to try the Adams case is progressing slowly in the district court at Pullman, Idaho.

Most of the day was taken up in the examination of L. H. Willis, one of the editors of the "Cour d'Alene Journal." He was asked to read articles in that paper bearing on the case and was asked if he wrote them. He denied any knowledge as to the authorship. The defense appears to be making a strong effort to get him off the jury.

Attorney Clarence Morrow arrived Tuesday afternoon and has taken charge of the examination of jurors. There are still 63 jurors in the box who have not been called.

### SECOND CHOICE WINS CAMBRIDGESHIRE STAKES

LONDON, Oct. 30.—At Newmarket today the Cambridge stakes, a handicap of 25 sovereigns each, with 500 sovereigns added, for 2-year-olds and upwards, one mile and a furlong, was won by Land League. Matua was second and Silk-Up third. Fifteen horses started.

Matua was ridden by Danny Maher, the American jockey, and was a hot favorite at 2 to 1 against. The betting was 8 to 1 against Land League.

### INCENDIARY FIRES DESTROYS HOTEL

PORTLAND, Oct. 30.—A special dispatch to the Evening Telegram from Carlton, Oregon, says the Hotel Carlton at that place was destroyed by fire today. Sixty guests escaped without injury. The fire is supposed to have been of incendiary origin. Loss will exceed \$40,000.

### TAFT IS ORDERED ON BERLIN TRIP

Stay In Philippine Islands Is Cut Short By Important Business at the German Capital.

MANILA, Oct. 30.—As the result of voluminous cable correspondence between President Roosevelt and Secretary Taft, it is understood that the latter will leave Manila on November 2, in order to reach Berlin at the earliest possible date. It is impossible to communicate with the secretary at present and the officials here are reticent regarding his change in his plans. It is understood, however, that he will leave here on the flagship Rainbow, Rear Admiral Hempill received a cablegram on Monday, asking whether or not he could make the cruiser ready to sail on Saturday. He responded in the affirmative and was informed, unofficially, that a matter of the utmost importance is pending in Germany and Secretary Taft's presence there is necessary there immediately.

The hasty departure of Secretary Taft will cut short his stay in the Philippines one week. He originally intended leaving on Saturday, but recently changed his plans to leave on Monday. He is expected to stay so as to clear up important business. The summons he has received from President Roosevelt will cut short the program prepared for his entertainment in Manila. He and his party are due here from Baguio tomorrow evening, when he is expected to attend a banquet in his honor given by the American residents of the city.

WASHINGTON, D. C., Oct. 30.—Nothing is known at the War Department regarding the change in the plans of Secretary Taft. The last advices were that he would prolong his visit in the Philippines one week, leaving his arrival in Manila on Monday.

Secretary Taft's original plan was to leave Manila Monday next.

### NEVADA MILLIONAIRE NOW A PETTY THIEF

RENO, Nev., Oct. 30.—Charley Carr, the original discoverer of the famous West End mine, one time owner of half of the city of Tonopah, and classed among the millionaires of Nevada, stood before Judge Bell in the justice court yesterday morning and received a sentence of sixty days in the county jail, with the alternative of a fine of \$120. For lack of funds and friends Carr was put in jail. He has been guilty of petty larceny, having stolen a suit case from Edward Schweitzer, a commercial road agent a few days ago.

Carr, who is about 45 years old, was one of the best known men in Nevada when Tonopah and Goldfield were discovered. He owned one-half of the town of Tonopah, and Jim Butler owned the other half. He won the race and squandered his money recklessly. Once he sold property worth \$5,000 to secure \$250 cash for a good time. During the past few months he became a slave to drink, and his many fast friends have gone with his wealth.

### DOWNHEARTED PUGILIST ATTEMPTS SUICIDE

LOS ANGELES, Oct. 30.—"Kiki" Berry, a local pugilist, disappointed because he was unable to make any progress in reaching the top in his profession today attempted to end his life by shooting himself in the breast with a .45-caliber revolver. The bullet was aimed too low and passed through the stomach and liver causing a probably fatal wound. An operation was performed but with little hope of saving his life. His sister lives in Utica, N. Y.

### HOT LANGUAGE IN FORD TRIAL

Honey and Byington Make Courtroom Echo With Talk About Each Other's "Blood."

### WHY DID NOT BYINGTON PUT RUEF IN JAIL?

Evidence Not Yet Concluded In Bribery Case—Prosecutor Attempts to Make Abbott Admit His Complicity With Ford

(By Associated Press.)

SAN FRANCISCO, Oct. 30.—Charged of too much "red blood" and too little of it, hung into each other's faces by Francis J. Heney, special prosecutor, and Lewis F. Byington, former district attorney, now of counsel for the defense, stirred up in the Ford bribery trial today the bitterest courtroom row since the general counsel of the United States Railroad paid a jury.

The prosecution, reaching the close of its case, spread consternation in the camp of its opponents and amazement among the big crowd in attendance by suddenly calling to the witness stand, Ford's assistant and co-defendant, William M. Abbott. Earl Rogers promptly advised Abbott not to testify, which advice he took. Then ensued a long and bitterly fought legal battle. Heney, trying with all his skill and power to persuade Judge Lawlor to rule that the only ground on which Abbott could base his refusal was the claim that his testimony would tend to incriminate himself, Rogers and the two Moores, father and son, with Attorney Byington and King, asserting with equal ability and force that as a co-defendant with Ford, Abbott could not lawfully be put upon the stand by the prosecution at all.

Finally Heney declared: "The only right that any man has to prevent the exposure of crime is the constitutional privilege that he is not bound—and I want everybody as well as you, Mr. Moore, in the courtroom and outside the courtroom—to hear me, yes, in the whole United States."

"All right," the elder Moore interrupted, "throw up the windows."

"Yes," Heney continued, pitching his voice to a scream, "and with the whole English speaking civilized world listening, you don't have to throw them up."

"You don't have to get red about it," remarked Byington.

Red Blood for Justice.

The remark so incensed Heney that his face became purplish and he raised his clenched fist: "Yes, I have to get red over it," he yelled, "because I am so built that there is some red blood in my veins, and when it comes to a question of justice and the protection of the common man against the criminal, the red blood does surge through my veins, and it appears in my face—and I am glad of it and I am proud of it."

"A district attorney," said Byington, "a prosecuting officer, should always be calm."

"A prosecuting officer," Heney retorted, "should have the ability to become indignant when people endeavor to use the laws of their country to protect crime."

"Well, you have it. Now let's get on," said Moore senior.

"Yes, I have it and I thank God that I have it," cried Heney.

Byington said, smiling: "Well, you haven't it all. There is a little red blood in the world besides yours. You are not the only honest man."

As to Byington's Record.

Then came the stinging rejoinder, like a blow across the cheek, that brought Byington in a rage to his feet.

"If your blood, Mr. Byington, had only been a little redder when you were district attorney, Mr. Ford might have been indicted and convicted on the French scandals long ago."

Byington, his own face crimson, jumped up and gripped the front of the new "I will say Mr. Heney," and his voice now held but sinking with emotion, carried through the crowded synagogue, "that the blood which flows in my veins is as pure and as honest as ever pulsed in yours, and everybody who has known me from childhood knows it. You don't stand any higher in this community than those who have grown up from boyhood with you, than I do. And I defy you, and I defy the millions behind you, to put your finger on a dishonest act in all my career as a public official or my life as a private citizen. I served this city for seven years and you can't put a finger on anything that I did that calls for reprehension from the people of this town. You, sir, under oath, swore to the truth of that before the grand jury; you swore to the grand jury that I had not done anything but my duty in this town and you know I never did."

"I would like," interposed Judge Lawlor, "to dispose of the matters before the court."

On which Byington replied, "I don't intend, if your honor please, to have an insult cast on me without answering it, by this man who insults everybody."

"Well you brought it on yourself," said Heney.

"You are not a little God that stands

above the rest of the world," Byington replied. "We are as much interested in the welfare of California as you are and I want everybody to know it."

In the morning Judge Lawlor will determine the legal status of Abbott as a witness.

(Special to Republican.)

SAN FRANCISCO, Oct. 30.—The prosecution believes that the case that it has presented against T. L. Ford in the second trial is much stronger than in the first, it being asserted that Heney did not expose all his testimony to the former jury because he did not regard it as possible to secure a conviction from it. The state has not made so much as a single suggestion that the present jury has been tampered with, in which phase there is a marked difference from the previous trial. Heney has been much more subdued, Earl Rogers has been curbing his tongue and demeanor, and all in all the trial just closing has proceeded far more agreeably for Judge Lawlor.

Several of the eight jurors who voted for acquittal in the first trial discredited the testimony that Ruef had been seen to leave Ford's office with \$50,000 in currency in his pockets, their reason being that the money would prove too great a bulk for him to carry in his pocket. The defense had made much of this point in the argument to the jury. For the enlightenment of the present jury Heney had the cashier at the bank bring \$50,000 in currency into court, if the denominations of \$500 and \$1,000, such as Ruef was alleged to have carried away from the company's office.

The cashier demonstrated that the money could easily be stowed away in the inside coat pocket without making any noticeable bulk.

He also brought \$2,000 in small denominations to show that it made a

(Continued on page two.)

### CALL FOR MONEY STOPS IN EAST

New York Banks Relieved of Demands Except Those from Beyond the Mississippi River

NEW YORK, Oct. 30.—The financial situation today was so nearly normal that there were few new features of importance. It was stated by the bankers that the calls for money from the neighborhood of New York and the entire east appeared to be practically satisfied as such calls for currency of an urgent character as were being received from points west of the Mississippi. These calls are being met as fast as conditions permit. Mr. Williams, the new state superintendent of banking, gathered up most of the cash in the suspended banks today and deposited with growing institutions thereby adding several million dollars to the funds available in the market. The debt balances against banks at the clearing house was smaller than usual and normal conditions, all such balances aggregating only a little over \$9,000,000 on clearings of \$30,000,000.

One of the points at which the most serious pressure of money is expected at New Orleans, to finance the movement of the cotton crop, committee of New Orleans bankers is in Washington and hopes to secure a promise from Secretary Cortelyou of the deposit of substantial amounts of public money in New Orleans and other southern cities. Secretary Cortelyou appears to realize that benefits secured by this policy will not be limited to New Orleans and the south, but will aid in the movement for the prompt delivery of American products in Europe and the creation of a credit balance which will cover the imports of gold.

One of the most interesting developments of the situation is the large amount of purchases of securities in small lots for investment. Most of the large private banking houses which sell stocks and bonds have been keeping the clerical force at work overtime executing investing orders and attending to the transfer of title to the books of the corporation by which they are issued. This is one of the decisive marks of investment buying.

It is estimated by good judges that there are 100,000 more names of stockholders on the books of the railway and industrial corporations than was the case a year ago. A single large railway pays between \$500,000 and \$750,000 per day. Another firm states that its wires to outlying places are crowded with small orders, directing the transfer of the securities to the names of new owners, while still another firm declares that there has not been a movement of this kind of such volume for twenty years.

The cables from Europe were not dissenting to those familiar with the situation there. The fact that the bank of England has allowed the question of raising the discount rate to go over until the regular meeting of the board of governors tomorrow is regarded as an indication that the demand for gold is not causing unusual anxiety there. It is generally expected that the rate of the bank of England will be advanced tomorrow, this will be too late to affect engagements of gold already made by the United States.

The depositors in Paris to aid in the London market by loans on sterling balances is regarded as an indication that the French bank is well fortified and is willing to pursue under government protection the generous policy which has usually characterized it in emergencies. The absence of any failures, either financial or mercantile in New York, of any importance except that of Kessler & Co., a private banking firm and the offer of call money at lower rates than during most of the time yesterday were other favorable symptoms of the situation.

### SCHMITZ ADVISOR OF P. H. M'CARTHY

Convicted Ex-Mayor Working For Election of McGowan, While Andrew Furuseth Comes Out For Langdon.

### TAYLOR MAKES GOOD AS STUMP SPEAKER

(Special to the Republican.)

SAN FRANCISCO, Oct. 30.—With the aid of the friendship of Sheriff O'Neil, Convict Eugene E. Schmitz is enjoying life at the county jail and is taking part in the present municipal campaign with the zest usual in the highest of freedom. Not only is he a highly favored guest at the prison, but he is given many privileges in the way of up-town trips ostensibly to consult his attorneys. In these outings he frequently holds conferences with P. M. McCarty, the union labor nominee for mayor, and assists in the directing of the campaign for the ticket, with McGowan, District Attorney Langdon's opponent, particularly in view.

Schmitz and Louis Glass, the convicted telephone hooligan, both occupy comfortable quarters on the upper floor of the jail building, rooms intended for the attaches, well removed from the dismal cells. They are in reality honored guests and everybody about the prison treats them with marked deference. They are with the superintendent of the jail and on Sundays are given good dinners, to which they invite their families and their friends.

Roncovieri Stands by Schmitz.

Superintendent of Schools Roncovieri is frequently a guest of the former mayor at these feal diversions. "Rono" will not forsake his friend, though his work lies in the clean atmosphere of the schools. The superintendent and Schmitz have been friends for many years. They went to the Klondike together in the rush of 1898. Schmitz, holding in a dance hall and Roncovieri auctioneering goods on the river front in order to earn enough money to get back home.

Schmitz is much of a non vivant at the county jail. These Sunday dinners, with family and friends about, are very enjoyable affairs, due chiefly to the ex-mayor's liveliness. Schmitz, it has always been known, is several inches deep and for cold blood.

Glenn Blumher Delman.

The prison life is affecting Glass' health and some days ago he was so ill that he could not respond to a request from his attorneys to come to their offices. The prisoner says that the jail is full of malaria and that it has afflicted him.

An effort will be made to have Glass released on bail, particularly if his health does not improve. Otherwise (Continued on page two.)

(Continued on page two.)

### VILLAGE DESTROYED BY LANDSLIDE AFTER EARTHQUAKE; 1500 DEATHS

TASHKEND, Russia Turkestan, Oct. 30.—The little town of Karatagh in the district of Bokhara, has been overthrown and destroyed by a landslide that followed an earthquake of October 21st. According to the latest reports of the disaster a majority of the inhabitants of Karatagh lost their lives.

The first reports of the catastrophe were exaggerated, the death list being placed as high as 15,000.

Karatagh has about 2500 dwellers, and there is reason to believe that about 1500 were buried alive. Among those who survived the disaster are the governor of Karatagh and his mother.

Karatagh is remotely situated. It takes a full week for news to get out from there, but according to one source who has come, an enormous section of the Karatagh cliff, which practically hung over the town, broke loose, and tumbled down on the village, which is almost ruined.

It is believed that London resources to supply New York demands. The strong advance of the sterling exchange rate at Paris today indicated some such operations going on.

Another feature of the day's news was the continued rise in the price of copper at the New York metal exchange in spite of a sharp reaction in the London price of the metal. The preparation of a plan for apportionment of Union Pacific holdings of securities in other companies to stockholders, made that stock a leader in the buoyant rally of the latter part of the day, practically all of which was told in the strong close.

Bonds were strong.

The report of the United States Steel Corporation for the quarter ending September 30, has its share in building up this upturn. The outlook in the banking situation is considered to be distinctly improved. Conditions in New York itself have made wide recovery towards the normal situation.

Increasing hopes are felt of reaching the period in which the use of extraordinary measures must be postponed, the event in which this condition must wait the arrival of the gold which has been engaged for import and which is not available for banking reserves while in transit at sea. The readjustment of the town accounts of the bank proceeds, and the severe depression of the early part of the day in the stock market.

It was the supposition that the accounts which were being closed out were responding to admission from the banks, which were strengthening their position in many cases where tolerance was shown in carrying accounts through the demoralized time in the stock market. It is the estimation of the banks that some borrowing of this class has come to rely mostly on a paternalistic attitude on the part of the banks.

The factor of selling in the money market was the policy out at J. P. Morgan & Company's office in anticipation of November 1st coupons and dividends, obligations estimated to run as high as \$11,000,000.

Importance was attached to the report from Paris of a plan for relief to the method of relief afforded by Paris and London last year and its importance to New York at this time.

Will Offer Balloon Cup.

BERLIN, Oct. 30. King Victor Emmanuel announces that he will present a cup for an international dirigible balloon competition to be held here in 1911.

## RETFO

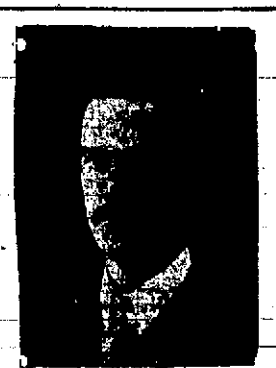

(REMEMBER THE NAME)

Retfo is the new gold spectacle and eyeglass mounting. Retfo frames are made under United States patent process, which assures a better, finer and more lasting product than has ever before been seen. Retfo frames never chafe the skin or hurt the nose or irritate the ears.

Retfo frames are guaranteed against breakage.

## News of Central California Towns

## MANY ARE IGNORANT OF NEW DOVE LAWS

Madera Citizens Still Shooting Protected Birds.

Date for Closing of Season Has Been Changed and Fact Unknown.

MADERA, Oct. 30.—The district attorney has announced that hereafter all persons shooting doves in this county will be prosecuted to the full extent of the law. Many persons have been shooting these birds in ignorance of the fact that by the act of the legislature the open season on doves was made to end October 15 and that those who were guilty of a misdemeanor.

The dove shooting in this vicinity has not been up to the standard of former years and it is expected that the earlier closing of the season will result in a great improvement in the sport next year.

No arrests have been made for shooting doves since October, for the reason that the district attorney has understood that many persons have engaged in it without any deliberate intent to break the law and that prosecuting them would work a hardship in many cases and be an expense to the county.

The carelessness of a brakeman in the Southern Pacific yards tied up traffic through this point for over an hour this morning. He threw a switch while one of a long train of freight cars was passing, throwing the forward trucks of the car onto one track and the rear trucks on another. The line was straightened out after an hour of hard work.

The ladies of the Methodist church will give a social at Mrs. Wren's, Lily Lake, tonight. Halloween games will be the feature of the occasion.

Friends of Mrs. N. W. Cook gave her a most enjoyable surprise party last night, it being her birthday. P. W. Cook, the father-in-law of the hostess, presented her with a handsome ring, the gift of her guests.

## 5 PER CENT BONDS

FIND NO BUYERS

No Bids Received for Merced Issue of \$32,000.

Work on Tuolumne Electric Project Stopped By Suspension of Bank.

MERCED, Oct. 30.—The city trustees held an adjourned meeting this evening to receive bids for bonds to the amount of \$32,000 for the purpose of building a new engine house and buying new apparatus. There were no bidders. The bond issue was authorized last July at an election, in which a big majority was given in favor of bonding the city for the purpose stated. The bonds bear 5 per cent interest, payable semi-annually.

A Merced enterprise has been affected by the failure of the Knickerbocker bank in New York. J. G. Cosanour has been superintending the teaming department of the construction company that is building a huge reservoir and installing electric works in Tuolumne and Calaveras county to supply San Francisco with electricity. The concern was financed by the Knickerbocker bank and its suspension has caused a temporary stoppage of the work. It is supposed that the enterprise will cost about \$10,000,000 to carry out. About 40 per cent of the entire work has been done.

The Merced Eagles have made arrangements for a public excursion to Yosemite valley, November 30th. Tickets will be good for ten days.

An intoxicated railroad laborer insulted the wife of a member of a theatrical troupe this morning on Main street, and was knocked down and out by the lady's husband. The fellow was taken to the county hospital and regained consciousness within an hour or two after his adventure.

Ten thousand tons of hay were hauled in the vicinity of Merced this year, a

## EASTERN STAR LODGE IS FORMED AT DINUBA

Grand Worthy Matron Issues a Dispensation.

New Chapter Has Twelve Members, All Officers of the Organization.

DINUBA, Oct. 30.—An Eastern Star chapter was instituted in Dinuba on Monday night, a dispensation having been granted by the grand worthy matron. The institution ceremonies were performed by Mrs. J. T. Turner of the Tulare district, deputy grand worthy matron. The new lodge opened with a membership of twelve. The meeting nights will be the first and third Mondays in each month and the meeting place will be in Central Block hall. The officers installed were as follows:

Mrs. J. L. Rhodes, W. M.; Geo. Hedgepeth, W. P.; Mrs. George Osterhout, A. M.; E. C. W. Scruggs, secretary; Mrs. George Hedgepeth, treasurer; Mrs. E. C. W. Scruggs, conductor; Mrs. E. H. Perkins, A. C.; Mrs. Olive W. Leinberger, Ruth; Mrs. W. C. Cloutier, Esther; Mrs. W. C. Wyman, Martha; Mrs. Iola Williams, Electa; J. L. Rhodes, gentleman.

An interesting meeting of the Dinuba Board of Trade was held Monday night. Several matters of a promotional nature were taken up. The committee having in charge the Northern Tulare county exhibit for the citrus fair to be held at Lindsay in December, made very encouraging report, the whole northern section uniting as one community in the matter. A mass meeting has been called for Saturday night in the interest of the proposed exhibit, and all residents of this section are urged to be present. The meeting will be held at the local opera house.

M. H. Dockman, secretary for the citrus fair was here from Lindsay in the interest of that event. Malcolm Burns was a business visitor to Fresno yesterday.

J. W. Bledsoe was in Reedley yesterday on business.

A great deal of which is in storage. L. K. Vaughn, manager of a big dredging company stated that material is on the way for building a dredger to operate on Merced river bottom lands near Snelling.

A telegraph office has just been opened at Snelling, the old county seat of Merced, on the line of the Yosemite Valley railroad. The operator is Miss Kaufman.

## MID-OCEAN HONEYMOON ENDS IN SHORT TIME

HONOLULU, Oct. 30.—The part of Lieutenant and Mrs. Nevins' honeymoon which was spent on Midway was short. Mrs. Nevins returned from the steamer schooner Florence Ward. She will await her husband here, as his stay at Midway is short.

Lieutenant and Mrs. Nevins were married just after he received his orders to proceed to Midway to take command of the detachment of Marines there. Mrs. Nevins decided to go along with her husband. A honeymoon spent in the loneliest spot in the world would be romantic. But an unromantic navy department stood in the way.

Lieutenant Nevins applied to the navy department for permission for his wife to accompany him on the naval vessel on which he had orders to go. This was refused, the wives of officers not being allowed to travel on naval vessels. Then he got permission to come with his wife as far as Honolulu on a transport.

From here he went to Midway about a year ago on the Annapolis. She remained here for several months awaiting an opportunity to join her husband. Finally she was able to secure passage by the Iwawaki, a small steamer sent from here to Midway by the cable company.

Her husband's service at that post will expire soon. There was no certainty that any other opportunity for her to get away would offer itself before her husband was ordered away. Hence she took the opportunity offered by the Florence Ward, a steam schooner owned by the cable company. She will await her husband in Honolulu.

## ORANGES ARE REPORTED TO BE SELLING HIGH

First Shipments from Visalia to Eastern Points.

Bonnie Brae Ranch Sends Six Carloads, Among the Early Valley Consignments.

VISALIA, Oct. 30.—R. C. Merryman, proprietor of the Bonnie Brae ranch near Exeter, has shipped to date six carloads of oranges, the first being sent out a week ago, one of the first to leave the San Joaquin valley. While no returns have yet been received it is understood the prices obtained have been high.

Samuel F. B. Morse, celebrated football player and captain of last year's Yale team, is lending his aid in the coaching of the Visalia football team. Increased efficiency is already manifesting itself. Mr. Morse arrived in Visalia several weeks ago and may decide to make his home here.

The trial of the case of J. C. Hamilton, a teamster, against C. Mettler of Fresno, was commenced in Justice Clark's court this morning, but postponed upon agreement of the parties. Hamilton claims that \$164 is due him for labor performed for Mettler when the latter had the contract for grading work on the Lemon Cove railroad.

At a meeting of the city board of trustees last night a call was sent in for more fire hydrants and better fire protection in the western part of the city where a section 3,300 feet in extent is without any protection whatever. The opinion of the city attorney is to be obtained upon the proposition of whether or not the city water company may be compelled to lay mains where directed by the city.

Mrs. A. H. Murray, Jr., and Mrs. H. G. Parish were guests at a social function given by Mrs. C. F. Balsam at Exeter today. Mrs. Murray rendered a vocal solo during the afternoon.

Company D, N. G. C., gave a masquerade ball at the Armory last night. There was a large crowd and the affair proved a great success. A fire-tuner was down from San Francisco and the costumes were many and varied.

A reception was tendered Rev. A. L. Baker, newly pastor of the First M. E. Church at the church parlors last night. A large number were in attendance. A short program consisting of vocal and instrumental numbers by Miss Ethel Schmitzer and B. F. Bourne was rendered. Toasts were responded to at the banquet table by A. L. Pringle, Mrs. J. W. Spaulding, Miss Margaret Fitzgerald, V. S. Lucas, Rev. Baker and others.

Mrs. Emma F. Zumalt, mother of as toast mistress, Rev. Baker was given a royal welcome by the affair was altogether a pleasant one.

It is announced that a concert will be given next Wednesday at the opera house in this city by Ralph Alfred of Porterville, late of the Boston conservatory of music, and Clarence Dineley of this city, under the auspices of the ladies' guild of the Episcopal church. Mr. Alfred is said to be a pianist of marked ability and prominent vocalist of this city.

Constable W. K. Clarkson brought to the county hospital this morning an old man named Thomas Sawyer, who has been wandering about Lemon Cove for several days. Saturday night Sawyer was discovered asleep under a board in a ditching rain. He resented being awakened, saying that he was having a fine sleep and did not want to be disturbed. The old man is ill, however, from his exposure and was deemed advisable to take him where he could be cared for. He is 87 years of age.

It is expected that upward of 200 Modern Woodmen in this county will go to San Francisco Monday night next to see Head Consul A. R. Talbot, who will be present at that time.

## IN THE LODGE ROOM.

A most successful entertainment and dance for the benefit of the Orphanage at Gilroy, was given by the Friendship Lodge, Rebekah Degree, No. 511 I. O. O. F., at Odd Fellows hall last night.

The opening address was made by W. H. Harris and was followed by a vocal duet by Maurice and Beatrice Koplan. A recitation, "A Lancashire Lad," was given in splendid style by George W. Hamilton. A vocal solo by George W. Hamilton was loudly applauded as was the recitation "Love of Liberty," by Miss Eva Derby.

Charles Shaw and C. Kellogg brought down the house with an exuberantly funny sketch in Chinese dialect, and J. L. Beall gave an illustrated song, accompanied by Miss Elmore. A piano solo, played in masterly style by Miss Myrtle Elmore, a recitation, "A Fire Friend," by B. Koplan, and a violin solo by Adam Baird, completed the program.

Dancing and refreshments followed and it was at a late hour that the guests left the hall. A fish pond presided over by Mrs. W. H. Harris, was a source of much fun and considerable revenue during the evening. About \$100 was realized for the orphanage.

The orphanage at Gilroy is supported entirely by the Rebekah Degree and is a model institution in every respect. At present there are about 100 children in it.

The committee in charge of the entertainment was composed of the following members of the lodge and the Odd Fellows: Mrs. W. C. Dow, chairman; Miss Minnie Elmore, secretary; Madeline A. Hunsdon and F. J. Whitney; Missa Cecelia Beck, Myrtle Elmore, Martha Conley and Carrie Grover; F. J. Whitney and W. H. Harris.

The Fraternal Brotherhood gave a dance at Elmer hall last night after the regular business meeting of the society. About three hundred were present and dancing was kept up until a late hour.

Knights of Pythias.

The regular weekly meeting of the Fresno lodge, No. 106 Knights of Pythias, was held last night, a large number of members being present. During the evening seven visiting knights from various parts of the United States were entertained. Martin B. Havner of Dardanelle, Arkansas, and F. C. Giesler of San Francisco, were admitted by transfer to the local lodge.

## GUNSHOT WOUND FATAL AS RESULT OF POISON

Earl Lovell of Lemoore Dies from Accident.

Shot Himself in Arm By the Dropping of Gun and Succumbs to Injury.

HANFORD, Oct. 30.—Earl Lovell of Lemoore died yesterday at the home of his parents from the effects of an accidental gunshot wound. The injury was received last Sunday while the deceased was hunting with two companions. A loaded shotgun fell from the buggy and was discharged, the shot passing through Lovell's arm near the shoulder. The arm was amputated, but blood poison set in and death was the result.

Homer Hoyt, bookkeeper at the State National bank, was thrown from his bicycle this morning by colliding with a dog, sustaining a fracture of his left arm. This is the second time that Mr. Hoyt has had his arm broken within the year, the first injury being received at the Palace skating rink.

Raisins are again being delivered in large quantities at the local packing house, and contrary to the expectation, considering the recent rains, the berries are in good shape and are commanding the highest market price.

A new time card will go into effect on the Santa Fe next Sunday. The principal change being the reinstatement of the morning train from the East known as No. 7.

George Souza, who it is thought is wanted in Contra Costa county, was taken into custody this morning in Hanford by Marshal Frederick.

Mr. and Mrs. A. G. Fisher and two sons arrived today from their home in Tulsa, Kansas, and will spend the winter in Hanford. Mr. Fisher is a brother of T. F. Fisher of this city. William and Albert Jensen, nephews of Mr. and Mrs. Fisher, arrived with the family and will also spend the winter in this city.

Arthur Cellena, who was accused of attempting to wreck a Southern Pacific train south of Lemoore a few weeks ago, was released yesterday on account of insufficient evidence.

Attorney P. C. Russell of this city, who had been retained to defend Perry Newgard of Coalinga in the case of an alleged charge of embezzlement, received word this morning that the case was dismissed.

## MUTINY STAMPED OUT ON FRENCH VESSEL IN SAN FRANCISCO.

SAN FRANCISCO, Oct. 30.—Trouble, which started several days ago on the French bark La Tour d'Auvergne ended this morning only after A. Reinoud, a mutinous member of the crew, who had been placed in irons for eight days, was taken ashore by the French consul, and Yves Lajan, another seaman, had been transferred to the French ship Helen Blum, lying in the stream. The men are accused of trying to incite a general mutiny among the crew.

STANDARD OIL COMPANY (Incorporated)

### THE FINANCIAL FLURRY

The financial storm in New York has blown over, but it seems just to have struck California. In both places it is a brain storm in the most literal sense of the word, since nothing has happened except in men's minds, and nothing has happened there except blind fear of nothing. There was plenty of money to do the business last week, and there is just as much now, with no more business to do with it. Business is going on, as if nothing had happened; and, in fact, nothing has happened, except that men have suddenly lost their sound sense, and are liable to do foolish things unless somebody stops them. The banks, through their system of clearing house checks, and now Governor Gillett by proclaiming daily holidays until further notice, have practically suspended the right of depositors to withdraw money from banks. Actually, of course, everybody will get all he needs, in cash, for the purposes that call for cash, and in certified checks for the purpose for which they are better than cash. But he will not get it as a right; and the man who wants to draw out money to hide in an old stocking because he has got a crazy notion that the stocking is safer than a bank, will be denied the privilege, until he has had time to cool off. Also, the cash reserves of California will not be depleted to supply excited hoarders elsewhere.

Several things stand out with remarkable distinctness in this flurry. One is the curious fact the business of the country goes smoothly on with all the money locked up except the little the people carry in their pockets for small transactions. Money seems to be needed for nothing else, and there is plenty for this. All other transactions are carried on in banking paper, covered by securities which represent property. The money is simply locked up. And the withdrawal of money does not pinch. It is the contraction of that purely intangible thing, credit, that squeaks. Another thing is the evidence that somehow, our financial system is inelastic and out of joint. With nothing the matter with business, something must be the matter with our system of exchange when the money that is adequate to do business one day becomes inadequate to do the same business the next day. Still another interesting phenomenon is the rapid buying of depreciated stocks for investment. What Judge Grosscup calls "the popularization of our industries is going on. There are many thousand more names entered as owners of railroad stocks, on the books of the companies than ever before, and the depression is increasing the number at an unheard of rate. At the very time when banks will not lend money on securities, the people are paying money to buy them. It is the difference between permanent investment and the moves of the financial game.

Most practically significant of all is the fact that the institutions which suspended payment are not banks, but trust companies doing a banking business. These trust companies are organized for legitimate purposes, to finance enterprises which are not proper banking investments, because they are not immediately realizable, but which may be in the long run just as safe and more profitable. The trouble comes from their doing a banking business along with their investment business. They must either put their banking business on a banking basis, with banking precautions, or they must get out of it. Either way would relieve the banking system of an inconspicuous and disturbing element.

Business has not felt the shock yet. Doubtless it will not, until the shock stage is past and the era of steady readjustment to new conditions has come. That will probably follow, and there will be some slowing, for a time, in the frantic pace of manufacturing and wholesaling business. Agriculture and retail merchandising in agricultural regions will be affected last, if at all. But there will be some general lowering in prices, as has already begun in the price of meat. Business will pay some of the price of financial readjustment. But there is no business panic, no hard times pending; merely a sound and healthy readjustment of conditions.

### A "SLIDE" TO RYAN?

The Ryan boomers in San Francisco are raising the cry of a "slide" to Ryan. The purpose is, of course, to produce the slide by talking about it. There are thousands of voters looking for the winning side, and if you can convince them that your side is the winning side, you get their votes and thereby make it the winning side. More legitimately there are thousands of voters in San Francisco, who as between Taylor and Ryan, are for whichever can win. If there were a slide for either, he would get most of the votes of those who would prefer the other. So naturally the "slide" question assumes importance.

Of course anything may happen in San Francisco. A victory for Ryan or McCarthy next week would not in the least discredit the accuracy of an observer who found everything for Taylor this week. But aside from that, the question of the accuracy of the likelihood that the alleged "slide" for

Ryan will materialize; unless indeed it turns out to be a slide from McCarthy to Ryan, in which case it will improve Taylor's chances. There is no indication of serious disaffection from Taylor among conservative voters. They are as earnest and as unanimous for him as ever. The sort of labor union voters who were for Taylor are not the sort likely to be stampeded by a shout. The shouters and the stampedeers were solid for McCarthy, to begin with, and if some of them are for Ryan now, it is an indication of safety. But it is not an indication that enough of them will go to Ryan to elect him, unless upon terms which Ryan can not afford to accept. McCarthy is making a tremendous campaign, backed by unlimited money (whose?) and he appears to be holding such a vote as would naturally belong to him. And much of this vote would not go to Ryan, even in the event of a "slide," since it is "thick and thin" labor union vote which will go for any union man, regardless of his personal fitness. And so diagnosing the case after considerable careful observation, it looks as if the three-corner fight still stood, with Taylor holding all the business vote and his share of the conservative labor vote, McCarthy with all the radical labor vote and Ryan with his share of the conservative labor vote, but very little of the business vote. In that event Taylor will be elected.

### MAKE HIM TALK

It is to be hoped that Judge Lawlor will this morning find that the law is what William M. Abbott, assistant to T. L. Ford, must testify in the Ford case, unless he asks exemption on the ground that he would personally incriminate himself. We do not know that this is the law, and of course the question before Judge Lawlor is not what the law should be, but what it is. But this is certainly what the law ought to be, and we therefore hope it will turn out to be what the law is. For certainly the privilege of refusing to testify ought to be purely personal, and ought to be applicable only to the cases in which the witness might personally incriminate himself. There is no such thing as corporate immunity. A corporation should be and is required to furnish the evidence to convict itself or its own members. The limit is broad enough if it merely exempts each person from obligation to furnish the testimony that shows his personal guilt. The right to shield one's associates is not a right in law or in morals. If Ford and Abbott are both guilty, both have the right to refuse to testify. But if Abbott is not guilty, and knows that Ford is, that knowledge belongs to the state of California, and he has no right to conceal it.

### LEAGUE CLUB ORGANIZED

The organization in Fresno last night of a Lincoln-Roosevelt League Club, and the general earnestness of purpose shown, make a good beginning for Fresno county. The officers of the League club, chosen last night, are men who have the confidence of all the elements working for good government in Fresno county, and there is every reason to suppose that this club will become the center of harmonious party action, locally. It will also be an organization to see to it that the part taken by Fresno county, in the state reform movement, will be along sound and uncompromising lines. It is a good beginning, and presages a good ending.

The work of organization will be taken up energetically, and there is no reason why the prediction of a club of 500 or even 1000 members should not soon be realized. The people are in favor of this movement; the organizers are earnest in it and have the confidence of the people, and success is apparently assured.

This is Halloween. "Citizens, look to your gates," also to your barns, your doorsteps, and all removable property. And let the police keep a sharp eye out for deprecators, young or old, who may forget that the law against malicious mischief holds good on the eve of All Saints day as well as at any other time.

### THOUSANDS OF CHINESE COMING TO CALIFORNIA VIA MEXICAN PORT.

MEXICO CITY, Oct. 30.—According to a dispatch to the Record, since the first of the year there have arrived at the port of Salina Cruz, 4,783 Chinese. Of this total two-thirds have for their destination the United States.

A great many of these foreigners seem to have all one time lived in the United States and are laboring under the impression that they can get in again.

Guy MacLaughlin returned yesterday from a three months' outing in Sonora, Yucatan county, and intends to make his home in Fresno.

Most disgusting skin eruptions, scurf, pimples, rashes, etc., are due to impure blood. Burdock Blood Purifiers is a cleansing blood tonic. Makes you clear-eyed, clear-brained, clear-skinned.

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding, protruding piles after years of suffering. At any drug store.

If you haven't the time to exercise regularly, Doan's Regulators will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them—25c.

Slaps carache in two minutes; toothache or pain of burn or scald in five minutes; hemorrhage, one hour; muscleache, two hours; sore throat, twelve hours.—Dr. Thomas' Electric Oil, monarch over pain.

### THE LOCAL BANKS WILL NOT CLOSE

The proclamation of Governor Gillett declaring banking holidays, will not be availed of in Fresno. It was stated last night that the local banks would be open to-day as usual, with possibly a holiday sign displayed.

### INDULGE IN FREE FIGHT OVER THEFT CHARGE

CHICAGO, Oct. 30.—"Jack" Sheridan, an umpire of the Southern league baseball club; L. M. Olsen, a gate manager at the American league baseball park in this city; E. O. Glenn, a wealthy broker of Denver, and M. J. Myer, a cattleman of Cheyenne, Wyo., were arrested early today after a fight in which Sheridan and Olsen were badly beaten.

The four men had been together throughout the night and when Myer discovered that he had lost \$150, accused Olsen of the theft. A fight followed and Sheridan was knocked down by Glenn, receiving a cut over the eye. Olsen went to his assistance and was also kicked down, and he declared that while he was on the floor somebody stepped on his neck.

H. W. Boedeker, the proprietor of the buffet in which the fight occurred and I. E. H. Rex, a bar tender, endeavored to interfere and they were also beaten by Glenn and Myer. The men were searched at the station and \$25.00 was found on Sheridan.

Myer and Glenn were uninjured with the exception of a few scratches.

### MUTINOUS SAILORS ATTACK VLADIVOSTOK

TOKIO, Oct. 30.—The Jiji-sha afternoon published a despatch from Vladivostok saying that the crews of two Russian torpedo boats there mutinied and attacked the city from the sea. The soldiers garrisoning the fort, which responded with a brisk fire, which resulted in one torpedo boat being destroyed. It was further stated that great excitement prevailed at Vladivostok and that the amount of damage was not known. Jiji, however, does not vouch for the accuracy of this report.

### LUMBERMEN OBTAIN INJUNCTION AGAINST HIGH FREIGHT RATES.

SEATTLE, Wash., Oct. 30.—The Lumbermen's Association got a restraining order and bond, fixed at \$250,000, in their suit to prevent the railways from putting in effect the high tariff. The decision was rendered in the United States Court late last night.

### PLAGUE DEATH RATE GREATLY DECREASED

SAN FRANCISCO, Oct. 30.—The following statement regarding the bubonic plague was issued today by Dr. Rupert Blue, of the Marine hospital service, and Dr. Williams Ophule, president of the local board of health: "Number of cases to date, 78; deaths, 50. The diminution in the relative number of deaths increases steadily."

### MORE DELAY FOR ASHE AND BROWN

SAN FRANCISCO, Oct. 30.—Attorney Bert Schlesinger asked for another day's delay this morning, on behalf of Luther Brown and Porter Ashe, when they appeared before Judge Dunne, to plead to the indictment charging them with kidnapping Fremont Oiler, managing editor of the Bulletin. Schlesinger promised to be ready by tomorrow morning, and with that understanding Judge Dunne granted the continuance.

SACRAMENTO, Oct. 30.—At a meeting of the Sacramento clearing house of officials tonight it was decided that the local banks will remain open tomorrow as usual. The Sacramento banks are all in excellent condition and none of them fear a panic. The banks expect to continue to do business as usual whether more holidays are declared or not.

SAN DIEGO, CAL., Oct. 30.—According to statements made by the heads of local banks tonight, all the institutions in this city will open for business tomorrow morning, regardless of the governor's declaration of a holiday. The banks here are in excellent condition and no fears of a panic are entertained by the directors of the institutions.

Albert O. Warner, for THE WARNER CO.

Jewelers, Silversmith and Opticians. 1929-31 Mariposa Street.

### SITUATION OF WESTERN BANKS

SEATTLE, Oct. 30.—The Associated Bankers of Seattle unanimously decided to ignore the legal holiday declared by Governor A. L. Mead on the ground that it was absolutely needless and his action was criticized as unfeeling and hasty. Seattle bankers say that they were never in better condition to meet all demands than now.

ODEN, Utah, Oct. 30.—The Oden bankers to-day resuscitated their action of early morning and decided to issue clearing house certificates owing to the unusual demands for cash having been made upon them by these banks of Idaho which were denied remittance by the Spokane banks. The same rule put in force in Salt Lake now obtains here, the amount of cash withdrawals being limited to 150 twice a week.

SPOKANE, Wash., Oct. 30.—Although Gov. Mead has declared a holiday for to-day and to-morrow to clear the situation among the banks, the Spokane banks will keep open for business. While they are using the clearing house for payments of checks, they claim there is plenty of cash on hand. Two of the banks are paying all their own deposits in cash when required.

To-day the associated banks issued \$400,000 in clearing house certificates of various denominations. These are being taken by merchants in place of cash and have relieved the situation.

SALT LAKE CITY, Oct. 30.—Business was apparently undisturbed this morning by the adoption of the clearing house certificate plan for to-day.

Large and small depositors came to accept the plan as the best means of safeguarding the interests of all concerned.

HELENA, Mont., Oct. 30.—Helena bankers state that it is highly improbable they will petition the governor to call a holiday or that clearing house certificates will be adopted in lieu of cash. The Helena banks, which have deposits aggregating \$8,000,000, have a cash reserve of about 40 per cent, which, with government and state bonds, is second to none in the west.

PORTLAND, Ore., Oct. 30.—The banks of this city are to-day doing business on the certificate plan. There is no great excitement and beyond great caution in all business transactions there is little evidence of unrest.

But one bank, the Title Guaranty and Trust Company, failed to open. President J. T. Ross stated that his institution had decided to take advantage of the Governor's proclamation and will remain closed until Monday. The Title Guaranty is not a member of the clearing house association though the association offered to extend to it all the privileges of the clearing house including the banking of the clearing house certificates.

### THE WEATHER

SAN FRANCISCO, Oct. 30.—The storm over British Columbia last evening has moved rapidly eastward and is being followed by another depression now off Vancouver Island. This has caused generally cloudy weather over the Pacific slope except in California. Light rain has fallen over Washington, Idaho and Northern Oregon. The temperature changes have been slight in all districts. Conditions are favorable for fair weather in California except probably showers Thursday on the northern coast.  
San Joaquin Valley—Fair Thursday; light north wind.

Temperature, dry bulb ..... 52  
Temperature, wet bulb ..... 57  
Humidity ..... 61  
Wind (V) m. per hour ..... 7  
Maximum temperature ..... 71  
Minimum temperature ..... 52  
Rainfall to date for season ..... 1.58

**FORECAST FOR CONDITIONS.**  
The depression central over the north Atlantic coast yesterday has moved eastward to the ocean causing light rains over a portion of the middle Atlantic slope. An extensive area of high pressure occupies the region east of the Rocky mountains, being central over the Great Lakes, accompanied by generally cool, cloudy weather. It is raining this morning in Nebraska, Kansas, Illinois and Ohio. The pressure has increased rapidly over the states lying between the Mississippi river and the Rocky mountains. A depression of considerable depth occupies the Plateau region and the Pacific slope, causing general sections northward. Cloudy weather prevails throughout California, but the conditions are favorable for increasing pressure and fair weather at Fresno and vicinity tonight and Thursday.  
J. P. BOLTON,  
Official in Charge.

City Clerk Ryan received yesterday word from Hon. J. R. Knott, assistant Superintendent of the California Anti-Saloon League, that he has "immediate and pressing use for a copy of the city ordinance regulating the sale of intoxicating liquors" and asking for a copy by return mail, whatever expense, if any attaching to the fulfillment of the request to be immediately and gladly met. Ryan sent him a printed copy of the charter, the expense on which will be 25 cents.

City Engineer Huxie has engaged Philip Wolf to do the leveling and ditching of the first 250 acres of the sewer main in the new site of the city water works. The 250 acres in question are in the northwest quarter of section 22 and the northeast quarter of section 21. The work will be begun as soon as Wolf can assemble his gang, camp, and will be done by the day job. Wolf has been doing similar work for several years for the Kearney estate and last leveled for it section 16 adjoining the farm.

# RAMBLER PUBLICITY

## New Ramblers For 1908

On even a casual examination of the 1908 Ramblers many marked changes over 1907 and previous models are noted.

Notably these changes, in the four-cylinder model, a new motor with many marked improvements over the previous design, selective type transmission, extraordinarily powerful brakes, large wheel and semi-elliptic springs both front and rear.

In the two-cylinder model the changes are less apparent, but equally effective.

For 1908 there will be but two chassis models, one with four and one with two, cylinder motors, but each will be equipped with both touring and run-about bodies.

In detail the modification in the four-cylinder motor comprises an entirely new crank case design of the non-divided type. The crank shaft is inserted through the end of the case with the rear and center bearings assembled and adjusted.

Motor support is by means of a tube passing through an extension at the forward end of the case and supported at the frame sides and a depending cross member passing under the rear of the case.

These valves are now set in side extensions from the cylinder heads and are actuated by direct thrust without the use of rocker arms or life rods.

The transmission gear, propeller shaft and rear axle are, as in 1907, built as a unit and outwardly bear much the same appearance. They differ radically, however, in that the gear is a selective type, instead of progressive, as heretofore, and both main and lay shafts run on adjustable roller bearings.

The rear axle is, as in 1907, of the floating type with roller bearings. The wheel hubs are of entirely new design, the brake drums being heavy steel stampings bolted to drop forged hubs. These brake drums are large, being 13 inches in diameter, 2 1/2 inches wide, aggregating about 416 square inches to the four brakes provided, that is, two in each rear wheel.

The steering pillar is of new design with a 17-inch wheel. Spark and throttle levers are set over the wheel and concentric therewith.

The wheels are larger than heretofore, being 26 inches in diameter with 4-inch tires, giving increased road clearance as well as greater comfort.

Another addition to comfort lies in the new springs which are semi-elliptic, front and rear. These are very long and broad, with comparatively thin leaves.

This model, known as 34, will be furnished with two body equipments. As running car it will be fitted with five passenger body of ample size.

As a roadster some slight changes will be made in the chassis, the front axle being moved forward of the radiator and necessary alterations being made in the rake of the steering pillar and position of the controlling levers. The roadster body is the three-passenger type with rumble seat. Particular attention has been given to body trimmings and finish. The floor is aluminum and the form of the clutch and brake pedals is such that there are no large floor openings around either pedal or steering post, the latter being rigidly secured to the floor.

The price will be the same with either equipment, that is, \$2250 with full complement of lamps and accessories.

While the two-cylinder car shows less variation externally from 1907 model, it differs greatly in mechanical detail. The power plant, while as of the unit type as in 1907, has been developed to a point closely approaching mechanical perfection.

The double-ported motor, with 5-inch bore and 6-inch stroke, has been retained but the cylinders are placed with the valves at the side instead of over the cylinders. The valves are actuated by direct thrust from a single cam shaft placed vertically at the side of the crank case and driven by a worm gear. This arrangement allows the use of a release cam for starting in place of the noisy release cocks. The cylinders are water-jacketed at both sides and head.

The motor bearings have been increased in size fully 50 per cent, and those at the flywheel side are adjustable.

The connecting rods have been made heavier and are now of the marine type. The outer bearing beyond the transmission gear is an annular ball bearing with 3/4 inch balls.

The transmission gear also shows marked improvement. As heretofore, it is of the planetary type entirely enclosed and running in oil.

The brake hands have been greatly increased in size and power. The lever for setting the forward springs now acts in a quadrant and is locked in position for both high and low speeds as well as the neutral point.

The steering wheel is the new pattern with spark and throttle levers inside and over the wheel.

This chassis is regularly fitted with five-passenger body with detachable top and 24-in. wheels with 4-in. tires. It is known as Model No. 31 and is sold with full equipment of lamps, etc., at \$1550. Without the top, but with torpede deck in lieu thereof, making it a high-power two-passenger tourabout, it sells at \$1450.

It will be noted that the entire facilities of the enormous Rambler factory will this year be devoted to the manufacture of two models only, though each of these is offered with both touring car and roadster body equipments, thus giving a complete line but greatly simplifying and facilitating manufacture.

Both models have been submitted to severe tests all during the past several months and the manufacturers offer them confident that they are as near mechanical perfection as an automobile can be.

FRESNO AGENT.

# Fruit and Raisin News

## BETS THAT CROP WILL BE UNDER 60,000 TONS

Packer Backs Opinion With \$250—Still Early to Estimate Raisin Crop Accurately.

A matter of some comment and interest among those who are dealing in raisins this year is the bet which has been made between two of the local packers on the size of the raisin crop this year, exclusive, of course, of the black grapes and other off varieties which were dried, as these are said to cut little figure in the raisin market. The bet is for \$250, and was proposed by one who was of the opinion that the actual raisin crop this season would not exceed 60 tons. Both parties to the bet are confident of winning, though it is now a matter largely of opinion and guesswork to determine their chances. It is a noticeable fact that the makers of the bet are not including all the grapes dried in the state, but are betting on the size of the raisin crop alone.

## LARGE LOCAL ORANGE CROP ESTIMATED

It is estimated by those who are said to be good judges that the local orange crop in this part of the state will be 10 or 15 per cent larger than that of last year. In the southern part of the state, the crop seems to be maturing nicely, though many sizes are apt to be small at the beginning of the shipping season, and there is some complaint of splitting.

## ANOTHER VACANCY IN POLICE FORCE

Officer Kennedy Hands In His Resignation.

Chief Shaw Announces That He Will Probably Name New Patrolman Today.

When Officer Kennedy appeared for duty at 6 o'clock last evening he created a surprise in police circles by handing his resignation to Chief Shaw.

Later to a Republican reporter Kennedy stated that he retired from the police force to take a needed rest following the murder of Nightwatchman Smith he worked night and day on the case and says he feels that he should take a longer vacation than the department rules provide for. Kennedy intends to take a trip to San Francisco and thence to go to Goldfield, and while he intends to make Fresno his home his absence will be indefinite.

Chief Shaw said last night that he regretted to lose Kennedy from the force, as he was an efficient officer. With the suspension of Kennedy the police department loses two of its most efficient men. Shortly after the resignation of Kennedy the police commission called in special session, authorized the chief to put on three extra officers. The chief has been unable to find the kind of material he wants and has not yet increased the size of the force. The emergency calling for the additional men seems to have passed, but the two unexpected vacancies in the department make it necessary that new men be found. Chief Shaw stated last evening that he would probably name some new men today, although he stated he did not have any particular ones in mind.

## JAPANESE PLANT— SUGAR IN FORMOSA

HONOLULU, Oct. 30.—Two men well known in the sugar industry in Hawaii, James Scott and Fred True, are in Formosa in charge of a sugar mill construction there, and a third, Carl K. Hedemann, has just returned. The three mills which are under construction, including the mill buildings, are all of American construction and design, portions being made by the Honolulu Iron Works here and portions by other American designers and manufacturers.

Carl K. Hedemann has just returned from there, and gives some interesting views of the industry and its outlook. The industry, he says, is being fostered by the Japanese government, with the idea of developing it to the extent of entirely supplying the Japanese market with sugar. There are now three mills, as has been stated, in process of construction. One of them is at a place called Kyoshibi, and is a nine-roller mill, with a capacity of about 200 tons a day. The second is at Hozan, and is a little larger than the one at Kyoshibi. The third is at Inshiki, and is equal to the largest mill in the world, having two sets of twelve rollers. Up to the present the sugar in Formosa has been produced wholly by Buffalo mills of the most primitive kind.

The connecting rods have been made heavier and are now of the marine type. The outer bearing beyond the transmission gear is an annular ball bearing with 3/4 inch balls.

The transmission gear also shows marked improvement. As heretofore, it is of the planetary type entirely enclosed and running in oil.

The brake hands have been greatly increased in size and power. The lever for setting the forward springs now acts in a quadrant and is locked in position for both high and low speeds as well as the neutral point.

The steering wheel is the new pattern with spark and throttle levers inside and over the wheel.

This chassis is regularly fitted with five-passenger body with detachable top and 24-in. wheels with 4-in. tires. It is known as Model No. 31 and is sold with full equipment of lamps, etc., at \$1550. Without the top, but with torpede deck in lieu thereof, making it a high-power two-passenger tourabout, it sells at \$1450.

## GUGGENHIME BUYS RAISINS AT 4 3/4

Admits Securing 150 Tons Within the Week.

Reports of Others Buying—Confidence in the Market Is Expressed.

Hert Guggenheim, a member of the firm of Guggenheim & Co., said last night that he had bought about 150 tons of raisins in the last week at four and three-quarter cents per pound, but denied the reports circulated in raisin circles that he had bought rather extensively at the price named, and also that he had bought raisins within the last forty-eight hours. It is stated that the raisins he bought were for immediate delivery and were a very good lot, and were worth the effort made to get them.

In speaking of the market, Mr. Guggenheim said: "We have confidence in the market, as we have bought some goods. One of the worst things which has happened to the market is the circulation of bear circulars in the East by the Armby company, in which they quote raisins at a low basis. It is one of the most harmful things which has been printed on the situation. There has been a consistent bear campaign."

It is further reported in raisin circles that another of the large firms of this city is buying raisins at four and one-half and four and three-quarter cents per pound. The fact that many of the packers have covered their requirements for immediate use is given as the explanation, in a large measure, for the fact that the packers are not buying very much at present.

Another member of one of the big firms here stated last night that he did not see any signs of weakness in the market at present in this end of it. He says that the growers are holding their goods well up, and that he does not see where the thing is falling through. When asked about the holdings of the packers at present, he went on to say that he did not think they had run long on the game this year, and even doubted if a single firm was long, while he was not strongly of the opinion, either, that any firm was noticeably short. As to the safest policy in pursuing the game now, he said that to play even was of course the best, or to play a shade under, with the certainty of cleaning up the holdings.

Deliveries were rather heavy yesterday, and the packing houses are running now at a great rate. Eighty-five tons of goods were brought to one house in Selma yesterday. Shipping facilities are better, and it seems that the crop is being moved out with good speed at present.

Another matter which has the cause of some rejoicing among the packers is the fact that the second crop of muscats is reported as going to the wineries at a better rate, so as to indicate that the danger of any large part of this crop coming into the raisin market is past. While it is not always a cause for rejoicing when this is the case, one packer said yesterday that it really ought to be, as the second crop raisins are never as good and they come in to compete with that part of the crop which ought always, under all circumstances, to sell if possible.

## THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

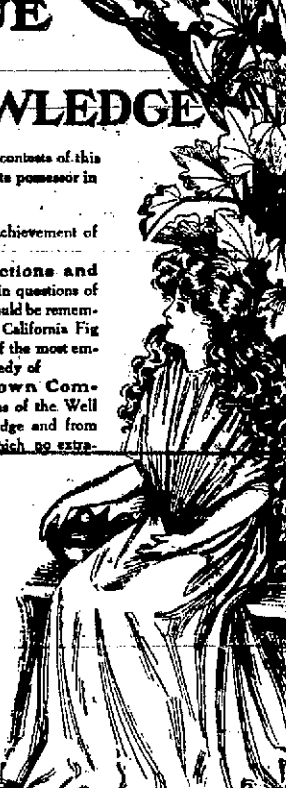

**The Well Informed of the World.**

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

**A Knowledge of Forms, Knowledge of Functions and Knowledge of Products** are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

**Known Quality, Known Excellence and Known Component Parts** and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

## PRISONERS EXPRESS GRIEF AT LOSING THEIR JAILER

Draw Resolution Wishing H. B. Staley Luck in New Walk in Life.

The prisoners in the county jail showed their regret at the resignation of H. B. Staley of the position of night jailer by handing out the following resolution, neatly engrossed upon a sheet of white paper, of the sort used by new papers, yesterday:

"Resolved: That we, the prisoners confined in the Fresno county jail, wish to express our regret that you are resigning your position of night jailer.

"To say that we are sorry to lose you would be expressing it very mildly; you may be sure that our sincere and heartfelt desire is that success may attend your every effort in your new walk in life.

"We hope you may never get older than you feel, and may you never need a 'horse shoe'.

"With sincere regrets.

The resolution is signed by twenty-one prisoners, including a Japanese who affixed his name in the characters of his own language.

conference to enter lay pursuits. Invariably they said they preferred the preacher's life to a business career, but the obligation to "support their families in decency" caused them, they said, to decide in favor of business.

Resolutions favoring higher pay for the preachers were adopted by the lay conference of southern Iowa at Burlington.

From the Wisconsin conference at Milwaukee comes an especially pessimistic report. Salaries there have not increased at all in the last decade or so. It was revealed that twenty pastors in this conference receive less than \$400 a year, and, at that, each preaches in two different villages every Sunday. In this conference there has been a decrease of 20 per cent in salaries during the last thirty-five years, while the cost of living has increased 40 or 50 per cent.

Better Showing in Illinois. The reports from the Illinois conference show better conditions than those of the Northwest. The "banner conference" for increase of salaries was the one held at Bloomington. Here the reports showed an average increase of 10 per cent for the last two years. In the Central Illinois conference, held at Rock Island, and the Southern Illinois conference, at Mount Carmel, improved conditions were reported, though the remuneration in many instances was still said to be woefully inadequate.

In the meeting of the Laymen's Association of the Rock River conference at St. James' Methodist Episcopal church in this city last Thursday a resolution favoring an increase in the salaries of preachers was discussed and adopted by acclamation. The resolution set forth the fact that no increase commensurate with the increase in the cost of living had been made in the salaries of ministers and called for action by the laity that "should permit the pastors to share generously" in the material advance and general prosperity of the church members. It was disclosed in the discussion that the average salary is not more than \$35 a month.

Want a \$1000 Minimum. A report for the augmentation fund committee, made at Friday's session of the conference, formulated a demand for a "minimum salary" of \$1000 for ministers in the Rock River conference. The Rev. James M. Phelps, president of the committee, addressed the meeting in favor of the movement. He said that during the last three years there had been an increase of about 20 per cent in the contributions to the fund, that the collections were "larger and more general" in the churches, and that in a few years the realization of the \$1000 salary as the minimum to be paid any member of the conference might be looked for.

Salaries have been advanced about \$100 each during the last four years, but this increase—which has not kept pace with the increase in cost of living—has failed to stem the ministerial stampede into business life.

Five withdrawals from the ministry were reported at the Northwest Iowa conference held at Sioux City, and the same reason was given in every case—insufficient pay.

Expenses 40 Per Cent Higher. The topic was exhaustively discussed at the Indiana conference at Columbus. Speakers read statistics showing that the cost of living had increased 40 per cent in the last few years, but there had been less than 10 per cent increase in salaries.

Several ministers withdrew from the

## BUCK'S STOVES ON APPROVAL

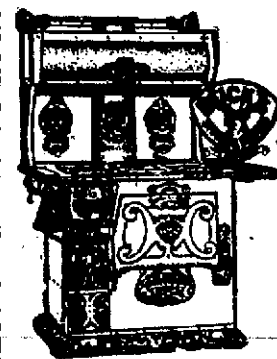

Right now is your chance to get a Buck's stove or range on approval. We will send to your home for a thorough test trial, any Buck's stove or range in our store.

This astonishing offer is made because of our great faith in these truly exceptional stoves.

If the stove does not in every way fulfill the promises made for it, we will cheerfully remove it and refund any money that may have been paid on it.

A bond goes with every stove, guaranteeing that we will do absolutely as we say we will.

Let us show you the stoves and tell you more of this exceptional offer today.

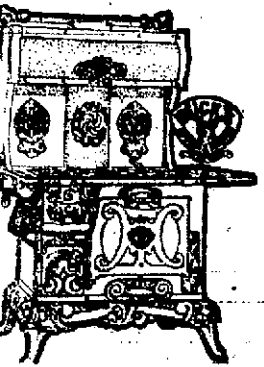

## Buck's Steel Range

Without exception the handsomest range made. Construction and operation are in keeping with its beautiful appearance. They have evenly-ovens are all ventilated. Made of washable steel; has enamel lined oven door; has double oven bottom; double asbestos insulation. Prices range up from ... \$52.50

## Buck's Stove

We have sold many of these stoves to Fresno housekeepers in the last few weeks, and every buyer expresses the greatest satisfaction.

Are constructed same as range, only on legs; has interlocking center grate; new fender grate for even draught. Prices range up from ... \$42.50

## Buck's Cast Iron Stoves

Also have enamel lined oven door that reflects heat; "guaranteed to bake like a brick oven"; moulded on oven door; built to wear and save fuel. Priced at ... \$17.50 and up

## TWO NEW CANDIDATES APPEAR FROM HANFORD

### Dinuba Comes to Front With Big Vote—Do Not Let Ballots Expire.

The picture is shown today of  
Henry Lucassen of Madera who en-  
tered the contest yesterday. His friends  
expect to make his name one of the  
notable ones of the contest and he  
himself enters with much enthusiasm  
and activity.

Yesterday's count showed a steady  
gain among all the contestants. There  
is always an undercurrent of uncer-  
tainty in each day's vote since the  
two or three big surprise votes of the  
past few days. It has done wonders  
towards the enthusiasm of the contest  
which was great before but now is at  
full height. Especially was the big  
Dinuba vote gratifying because it came  
from an outside district. It seemed  
to bring its district in closer touch  
with the rest of the contest. This  
district No. 5 is the banner one of  
the outlying sections and is going to  
capture something like in the way of  
votes. It has six counties to it and  
it looks very much as if one of the  
six might be a big one.

The Republican realizes it has a  
high standard to maintain in this con-  
test and that there is nothing too good  
for its patrons and subscribers. That  
is one of the principal reasons for  
the success of this contest. Every  
confidence is felt in the management  
of the paper. The contestants feel as-  
sured that every agreement will be  
lived up to and that their interests  
are the deepest concern of the man-  
agement.

Agals must contestants be caution-  
ed about having their friends bring  
in ballots on time before they out-  
law. Yesterday there were a great  
many ballots sent in dated October  
13th, so of course they all had to be  
rejected. Watch closely the dates on  
your votes and make them all count.  
Else all your hard work goes for  
naught. Another matter which the  
Circulation Department wishes made  
very plain and that is the importance  
of having the name and district of  
contestants on the ballot.

In the rush of counting the thou-  
sands of votes which come in every  
day, it is difficult to count unless all  
of the ballots are properly marked. Be  
very careful that your ballots are all  
plainly marked with the candidate's  
name and district. This applies es-  
pecially to the ballots out from the  
paper, although the voting slips must  
be marked in the same manner. A  
great many ballots are sent through  
the mail with no names on them. This  
is simply a waste of time and energy  
and does no candidate any good.

Two new candidates from Hanford  
were added to the steadily growing  
list of candidates yesterday. One was  
Beatrice Hawley, daughter of Mr. and  
Mrs. T. B. Hawley of the Santa Fe  
Hotel. She is a winsome little girl  
of fourteen years and expects to do  
some hard work in this contest. With  
an encouraging starter of 1500 votes  
her candidacy gives promise of being  
a strong one inasmuch as she has a  
number of her own friends as well as  
those of her parents to aid her.

Another attractive Hanford girl to  
enter is Miss Leta Dean, daughter  
of Mr. and Mrs. J. M. Dean. She is  
a graduate of the grammar school  
of Hanford and is a wide awake girl  
whose winning personality and genial  
manner make her a great favorite.  
Her friends are all enthusiastic over  
her candidacy and pledge their earnest  
support to this popular girl who en-  
ters with 1000 votes to her credit.  
Mrs. George Cobb made another en-  
couraging gain yesterday and keeps  
first place. Henry Young of district  
No. 10, who has been steadily in the  
front, taking the position formerly  
held by Miss Lulu Rutledge. Mr.  
Young is one of Selma's brightest  
young men and has a fine support in  
his own friends.

The Complete Vote.

The complete list of votes up to 5  
p. m. yesterday afternoon is as fol-  
lows:

The reason Postum  
builds up the human body  
to a prime condition of  
health, is that when cof-  
fee is left off, the drug ef-  
fects of its poison—caf-  
feine—disappear and the  
elements in Postum unite  
with the albumen of food  
to make gray matter and  
rebuild the delicate nerve  
centers all over the body  
and in the brain. This sets  
up a perfect condition of  
nerve health, and the re-  
sult is that the entire body  
feels the effect of it.  
"There's a Reason."

**GROWERS TO HOLD  
33rd CONVENTION**

Problems of Vital Interest Will  
Be Discussed.

Marysville Will Entertain the  
Fruit Men of the State  
This Year.

The thirty-third fruit growers' convention will be held at Marysville under the auspices of the State Commission of Horticulture, commencing Tuesday, December 3d, at 9:30 o'clock, and continuing until Friday, December 6th.

The object of these conventions is to bring together the various branches of the state's greatest industry, to get them into closer relations, to exchange views and experiences upon all matters bearing upon fruit-growing, and upon all horticultural matters: to secure better results and better markets for products. To these ends papers will be presented and addresses made upon all subjects bearing on the fruit industry. These will be open for discussion, and all questions germane to the subject will be answered.

These conventions have steadily increased in interest from their commencement thirty years ago; have been largely the cause of the great growth of the fruit industry, and have been of incalculable value to the growers of the state, and it is determined to make this, the thirty-third, the best and most comprehensive that has ever been held. Very many questions of vital importance to all who are concerned in the fruit industry

**SAVE  
YOUR  
FACE**

Age, sickness, overwork, trouble, these deadly enemies of woman's dearest treasure (her beauty and complexion) are rendered well nigh powerless by **MRS. BETTIE HARRISON'S**  
**LOLA MONTEZ CREME**  
A great scientific discovery—a food for the skin, replacing wasted tissue, filling out wrinkles, causing the skin to throw off what is unhealthy and discoloring, and to assume the beautiful translucent and velvety softness of youth and health. Potent for three months, 75c., at all druggists.

If you have any defects of skin, scalp or general health, write me. Correspondence solicited.  
MRS. BETTIE HARRISON, Dermatologist,  
1008 Butter St., near Hyde,  
Fresno, Cal.  
For sale by Baker & Olson, druggists.

in any of its branches, will come before the convention for discussion and consideration, and it is directly to the interest of all to be present. Most of these questions are upon the many serious problems which now confront the fruit-growing industry, and which alone can be solved by the combined wisdom and energy of the fruit-growers and by their co-operative action.

A cordial invitation is hereby extended to all fruit-growers, shippers, wine-makers, raisin-growers, packers, nurserymen, University people and horticultural officials of the state, and to all others interested in this, the principal productive industry of the state, to be present and take part in the proceedings of the convention. Arrangements have been made with the Southern Pacific, the Santa Fe, and the Northern Electric railroads for special excursion rates, and people within reach of any of these roads can secure tickets direct to the convention at reduced rates. It will be necessary for each person who desires to avail himself of these reduced rates to pay the local agent of the railroad company from whom he buys his ticket the full transportation charge to Marysville, and demand from that agent a receipt made out on a blank furnished by the railroad company. This receipt, which counter-signed by the secretary of the convention, will entitle the holder to purchase a return ticket at one-third the regular fare.

Arrangements have been made for Hotel accommodations, and a local committee will meet all members of the convention and see that suitable accommodations are furnished each one. Arrangements will also be made for entertainments and excursions, and every effort will be put forth to make this convention the best ever held, and the whole affair a most enjoyable one to all who attend.

**LOS ANGELES MAN  
FALLS FROM WEAKNESS**

C. B. Crane Faints on Sidewalk and  
Suffers Severe Wounds on  
Head.

C. B. Crane of Los Angeles fainted on the steps of the Ogilvie house yesterday morning at 8 o'clock and fell to the sidewalk, striking his head against the curb and inflicting several severe scalp wounds. He was taken to the emergency hospital, where Dr. Lamkin took twenty stitches in his scalp, and thence to the county hospital.

Crane applied to the Chief of Police for admission to the county hospital some days ago, claiming that he was sick and without funds, but was refused.

When taken to that institution yesterday he was found to be in an extremely debilitated condition. He has a wife in Noyanne, Michigan.

Most Consumptive Graves  
Are filled by those who neglected that first little tickling cough. Take warning and use S. B. Lung Tonic at the start. Price 50c at Smith Bros' Drug Store.

**MINTS START  
COINING GOLD**

Fifteen Millions at Once Is  
Order Sent from Washington  
to the San Francisco House.

SAN FRANCISCO, Oct. 30.—Pursuant to directions from Washington, the coining of \$15,000,000 of gold bullion will be undertaken immediately at the mint in this city. No gold has been coined here since August, the active force being engaged in the coining of Philippine pesos. The mint force was considerably enlarged at the time the coining of Philippine silver was undertaken and it is thought this force will be adequate to handle the rush order for gold twenties.

DENVER, Oct. 30.—A large force is engaged at the Denver mint in coining the \$48,000,000 gold bars stored there and more bullion is pouring in daily from the Colorado and other Western mines. The total output of the mint for October will exceed \$8,000,000 mainly in \$20 gold pieces. The gold will be shipped to the money centers as rapidly as it is coined.

**POLICE BELIEVE BOYS  
SHOT NEGRO PEARSON**

A warrant was issued by Judge Briggs yesterday on a complaint sworn to by Detective Ben Drenth, charging Sam and Grover Crane with the crime of assault with a deadly weapon. The men are brothers and the complaint charges that they shot William Pearson on the night of October 18th as he was coming from a dance on I street.

Pearson, who is a negro horse trainer, was shot in the jaw and could give no description of his assailants. By-standers who saw the shooting gave a description of the men who did it that the police declare fits the Cranes. They have testimony to the fact that the men answering the description were seen running north on I street immediately after the shooting, and along the railway tracks, that the same two men turned back on one of the up-town streets and that one of them was seen to pick up a revolver that had been dropped by them soon after the shooting at the corner of Merced and I streets.

Grover Crane, who is but 17 years old, was arrested on a vagrancy charge last Monday and is in the county jail. His brother, who is five years older, left town several days ago.

The Crane boys lived with their father, C. N. Crane, at the corner of Kern and I streets. He declares that the boys were at home in bed when the shooting occurred, but the police claim that they were seen on the streets later.

**CLEARING HOUSE SHOWS  
DOUBLE BUSINESS DONE**

Under Temporary Arrangement It Appears that City Is Financially  
Center.

Since the banks of the city went on a clearing house basis, the figures of the clearing house for yesterday show the actual amount of financial transactions done. In ordinary times the clearing house figures show only the business done by checks, but as all business is now done by check the clearings show the actual business done. Accordingly twice as good a showing was made yesterday as on Monday.

Monday's bank clearings were:  
Morning ..... \$69,434.35  
Afternoon ..... 49,468.70  
Total ..... \$118,903.05  
Yesterday's bank clearings, under the temporary system, were:  
Morning ..... \$137,776.16  
Afternoon ..... 84,465.10  
Total ..... \$222,241.26

**HOLD-UP MEN TO FACE  
CHARGE OF BURGLARY**

The Rev. H. H. Wilson yesterday swore to a complaint in Judge Briggs' court, charging J. S. Smith and W. Harvey with burglary committed in his residence, 519 Sumner avenue, on the night of October 18th.

Thompson were arrested by Patrolmen Maehen and Johnson on October 20th, and had in their possession articles taken from J. W. Gurrell, who was held up on a Sumner avenue on the same night that the Rev. Wilson's house was robbed, a watch taken from a man named O'Donnell, who was held up at the point of a revolver on Butler avenue on the same night, and a lot of hardware stolen from a store in Kingsbury on the night of October 15th. Jewelry and a revolver from the house of the Rev. Wilson were also found in their pockets.

**COLD KILLS THE GERM.**

Lieut. Perry Says That There Are No  
Bald Heads in the Arctic Region.

The people who come back from Klondike testify to the fact that no native bald heads are there. The evidence is that the cold climate kills the germs that eat the hair off at the roots. Lieut. Perry, who went to the Arctic Region, gives the same evidence. Newbro's Herpicide has the same effect as the cold climate. It kills the germ that eats the hair off at the roots, and the hair grows again. Herpicide is the first hair remedy built upon the principle of destroying the germ that eats the hair off. Its phenomenal sale demonstrates the correctness of the scalp germ theory. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Geo. H. Monroe, Special Agent.

**50 CENT EGGS**

You may feed grains alone until doomsday and you will never get many of them. To get the best results it is just as necessary to feed a scientifically balanced ration to fowls as to any other stock. Many so-called "poultry foods" and "egg-makers" are nothing but stimulants and not advisable to be fed regularly. But you must supplement grains with some highly nitrogenous food, rich in protein, to keep the hen in good health, build up her system and furnish her with the material for making eggs.

**EGG-MORE**

Is just this and nothing else. It is not a strong tonic and stimulant but contains enough condiments to give the food relish and keep the fowls in fine fettle. Just a little fed daily with good grains, or even with bran, will do it. It can be fed either dry or as a mash. The hens like it, they eat it, there is no waste. It makes the very cheapest Egg Food, especially if you can buy your grains at home cheaper than to ship them in. The cost is but a very small per cent of the increased egg production. Give your fowls good care and a little Egg-More each day, and they will certainly give you more eggs.

**Republican's Grand Voting Contest**

**SECOND PRIZE—Also Free for All  
Regardless of Location**

**A 1908 Model  
Rambler Touring Car  
Price \$1,650**

This is an absolutely high-grade car, of the most modern and luxurious sort, fully equipped, with top, finest lamps, and everything necessary to a complete outfit. The finest two-cylindered touring car on the market.

This car will be given to the candidate receiving the second highest number of votes.

**FIRST PRIZE**

**FREE FOR ALL  
IRRESPECTIVE OF LOCATION**

**A Twenty Acre Farm  
Worth \$2,000**

Twenty acres of the best land in the Fresno Irrigated Farms District. All this land now on the market is selling for \$100 an acre, and none can be had for a cent less. This is the former Bank of California tract, now owned by the Huntington interests of Los Angeles, and is destined to be one of the richest and most attractive farm colonies in California. Kearney Avenue is to be extended clear into the district; a street car line is a certainty in the near future; and the Fresno Country Club is now arranging to make it a center of out-door pastimes and social life.

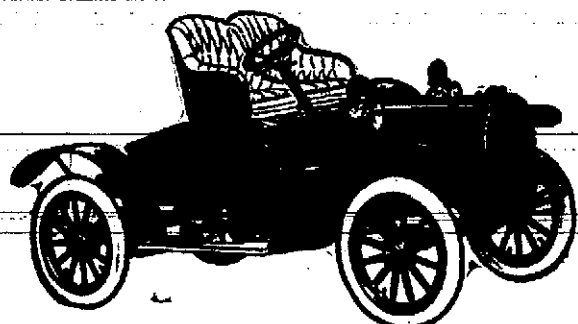

This farm will be an investment, and in a short time a competency for life. It is, beyond comparison, the finest offer ever made by a newspaper on the Pacific Coast, in a circulation contest.

This farm will be given to the candidate, irrespective of location, receiving the highest total number of votes.

**THIRD PRIZE**

In awarding this prize, the territory is divided into two districts, of which Fresno County is one, and the other consists of Tulare, Kern, Kings, Madera, Merced and Stanislaus Counties.

This car will be given to the person receiving the highest number of votes in the district not winning second prize. Fresno County will be one district; the outside Counties the other.

**Newest Model  
Rambler Runabout  
Price \$1,150**

A high-powered, two-cylinder runabout, of the highest grade, fully equipped. The best general purpose car on the market.

**Six Trips to Yosemite**

The districts will be the same as for the trips to Hawaii, and one trip to Yosemite will be given to the person receiving the second highest number of votes in each district.

**Six Trips to the Hawaiian Islands, All  
Expenses Paid**

For the purposes of this prize, the San Joaquin Valley will be divided into six districts.

District 1—Fresno City.  
District 2—Fresno County outside city.  
District 3—Madera County.  
District 4—Merced and Stanislaus Counties.  
District 5—Kings County.  
District 6—Tulare and Kern Counties.

One trip to the Hawaiian Islands will be given to the person receiving the highest number of votes in each of these districts, who does not win one of the capital prizes.

**Eighteen Trips to Los Angeles or Santa Cruz**

In each of the six districts, three trips to Los Angeles or to Santa Cruz, at the choice of the winner, all expenses paid, will be given to the three candidates coming nearest to the votes of those winning the first and second prizes in these districts.

## LINCOLN-ROOSEVELT CLUB WAS FORMED LAST NIGHT

Its Purpose to Eliminate the Railroad From Republican Party State Politics.

## GRAFT PROSECUTOR HENEY IS COMING TO SPEAK AT BARTON

A healthy and promising Lincoln-Roosevelt League club was formed last evening at a meeting of well known Republicans held at A. O. U. W. hall. Officers were elected and a club roll started.

The hope was expressed that the organization should before long have a membership of 500. The chairman of the meeting saw no reason, with the sentiment in the air for purity in politics, why before the appearance of F. J. Heney in Fresno to speak next month the club should not have 1000 old and young Republicans enrolled. The league will form another club at Selma to bring under the banner the Republicans in the southern half of the county.

History of Movement.

Before proceeding to name a temporary chairman, Chester H. Rowell enlightened the attendants on the history of the movement, stating that the idea of organization originated at Sacramento during the Southern Pacific dominated legislature, though taken up after that in Los Angeles. It was in fact started by the newspapermen, but has since been taken up by others with the strongest newspaper auxiliary that any similar organization ever has had.

Mr. Rowell told of the dinner at Los Angeles on the 14th of last May at which the League of Lincoln-Roosevelt clubs was formed, that the gathering was not considered as representative as it ought to be and that the movement was in fact launched at the Oakland meeting which was a thoroughly representative California meeting. President Roosevelt is out of the organization "in name and spirit," and this was done at the request of his personal representatives. The Oakland movement went with a whoop.

The state central organization was formed at Oakland with Frank Doolin as chairman, vice presidents in the four districts and an executive committee in each congressional district. In Southern California the organization is almost complete and clubs are being formed. In Sacramento an active campaign is in progress. The reform ticket carried the day at the primary with every prospect of success at the election. In San Francisco with the peculiar conditions existing there, it is a question whether the situation will end in a fusion. The people are with the league on its platform of principles. Messrs. Spreckels and Heney are with the league and its principles.

Principles Have Won.

Mr. Rowell enlarged upon the thought that the principles of the league as a new movement won at the primaries in Sacramento and San Francisco on an anti-railroad platform, something that has never before been accomplished. The purpose of the organization is to rescue the Republican party from its present situation which no one pretends to defend and all deplore. The organization is in process of full organization. And Mr. Rowell thereupon gave out an interesting secret that F. J. Heney is a Republican, no longer a Roosevelt Democrat but a Roosevelt Republican, and the league has made him one and the league will make many more Roosevelt Republicans as the lack of the league might have made many Roosevelt Democrats behind him.

The movement is not along one of principles but one of actual personal activity and behind it is the strongest publicity agency. The representative California Republican newspapers are behind it with almost one voice, and in that respect it has at its back what no other organization has ever had.

The movement is a success and around it the political revolt is crystallizing. It is a boosting movement but it will do its share of knocking and it will not rest in peace or cease to do harm where harm should be done, until it has re-established the basis of control of the state of California in the people and rescued the Republican party from the domination of the railroad in politics.

Republican politics have not been under that domination in Fresno as in other counties, but the movement here will give new enthusiasm to the Republican party here and lend co-operation to the state movement.

James Chairman.

Mr. Rowell called for a temporary chairman and W. A. Conn named former District Attorney G. W. Jones, who was chosen unanimously.

Mr. Jones said for himself, in accepting the office that he had thought of retiring from active participation in politics and to devote his time to his own business, but when he read the platform of the league and recalled the conditions existing in the state it sounded to him like a bugle call to the colors.

The movement should enlist everyone to activity to redeem the state from the rule of those who are for the individual benefit rather than that of the people. The public conscience has been aroused and the purpose is to realize the elimination of the most element from politics. The railroad and other parties have been shameful. The speaker said he regretted and blushed in shame for what the Republican party has done in California in the last few years, or rather what it has permitted to be done under its party name. He hoped the league may be an instrument to eliminate this from the party.

Police Judge H. F. Briggs named Ernest Klotz for the temporary secretaryship and he was unanimously chosen. Thereupon the chairman named as a committee on organization W. A. Conn, D. T. Winer, H. H. Briggs, A. M. Drew and R. V. Parker.

Message From South.

While the committee was in session in conference, Marshall Stinson, who is a member of the Los Angeles league, executive committee, made a short talk and told of the progress of the work in the south where seven assembly districts have been organized. There the idea is that they have had enough of the boss, with

## TWELVE STATES HAVE ELECTIONS

How the Political Parties Will Line Up for Governor and Other Officers Next Tuesday

NEW YORK, Oct. 30.—There will be elections in twelve states next Tuesday. In Massachusetts, Rhode Island, Maryland, Mississippi and Kentucky, a governor and other state officers are to be chosen; in New Jersey a governor only; in New York, two associate justices of the court of appeals; in Pennsylvania, a state treasurer, and in Nebraska, a railroad commissioner and two members of the state university. In Ohio, Utah and California, municipal officers are to be selected, while in New York county a number of judges and a sheriff are to be voted for.

The prohibitionists have a state ticket in all the states except Maryland and Mississippi, and city tickets in Cleveland and Cincinnati, but not in San Francisco or Salt Lake. The Socialists also have tickets in all the states except Mississippi and Nebraska, and city tickets in Cincinnati, Cleveland and Salt Lake, but not in San Francisco.

The Socialist Labor party has tickets in Kentucky, Massachusetts and New Jersey, while Union Labor made nominations for city officers in San Francisco.

There is only one ticket—Democratic—in Mississippi, and the result, of course, is doubtful. In Massachusetts there are ten tickets, five being divided among Democrats, who are engaged in a factional fight with the state delegation to the National Democratic convention next year in prospective. The ballot law commission decided that Henry M. Whitely was the nominee for governor.

In Nebraska, the Democrats and Populists fused on the officials to be voted for throughout the state. In Maryland there will be a straight contest between the Democrats and the Republicans, only the two parties having made nominations for state officers. In addition to these, a house of delegates and one-half of the state senate are to be elected. The next legislature will choose two United States senators—one to fill the unexpired term of the late Arthur T. Gorman and the other to take the place of Senator Rayner. The Republicans adhere to the old plan of senatorial election, but the Democrats are to put into effect a new senatorial primary plan, which requires every member of the legislature to vote for the candidate receiving the highest vote in his district. The senatorial primaries, so far as the Democrats are concerned, will hereafter be held at the regular elections in Maryland. Six aspirants for the long term will be voted for November 5, the candidate for the short term having no opposition.

The local elections, particularly in New York county, Cleveland, Cincinnati, Salt Lake and San Francisco, are of particular interest this year. In New York county the Republicans and the Independence League (Heart) forces were forced to make up a number of court justices and a sheriff. This given unusual interest to the contest, although the Republicans named the head of the ticket, M. Linn Bruce, for justice of the supreme court, the most important office, that of sheriff, went to the Independence League, whose nominee, Maximilian P. Imeson, has been William R. Hearst's campaign manager in several campaigns. Of the ten judges nominated, the Republicans named five, and the Independence League named five. Opposed to them on the Democratic ticket is Thomas F. Foley, Democratic leader of the second assembly district and a well known figure in East Side politics, while James W. Gerard heads the Democratic ticket for justice of the supreme court. Soon after the nominations were made, Mayor McClellan, who has been opposed to the present Tammany machine, announced that he would support the ticket against the Republican-Heart combine.

In Cleveland, Congressman Theodore R. Burton is leading the nationally with Thomas A. Johnson, who is undecided as to whether he will support William J. Bryan in Nebraska, and to endorse Bryan's views on the subjects of public utilities. There are four tickets in Salt Lake City, the American or Anti-Mormon party, having nominations for local officers as have the Republicans and Democrats and Socialists.

In San Francisco the Democrats and the Good Government party have combined and nominated the present acting mayor, who is opposed by a Republican as well as a Union Labor candidate, and the three-cornered fight is decidedly lively.

CHICAGO, Oct. 30.—At a meeting in Chicago yesterday, representatives of the larger railway systems agreed on rates to the west. Since the passage of the 2-cent fare laws in many of the western states there has been talk of discontinuing the rate.

There was a minority of the opinion that the rate should be wiped out and regular tariff charged to all. Representatives of the Union Pacific, Burlington, Milwaukee, St. Paul and Northwestern and Rock Island, said they agreed to abandon these rates as they had resulted in building up the west.

It was agreed, however, that the homecoming rates be slightly advanced after January 1. The maximum advance will be 45¢ on each round trip ticket. To illustrate, the round trip homecoming rate, Chicago to Texas and other southwestern states, will go from \$25 to \$30; to Wichita, Kansas from \$20.50 to \$22.50, and to Denver from \$25 to \$32.50. It is planned to advance the 45¢ one-way California rates in the spring to \$38.

Small Run at Pittsburgh. PITTSBURGH, Oct. 30.—A run was started shortly before noon on the All Nations bank, a small concern in the South Side region, depositors, who are mostly foreigners, became frightened over a report that some of the bank's officers had left the city. This was denied. The bank is declared solvent.

FRESNO MAN WEDS KINGS COUNTY GIRL. Rev. Duncan Wallace Brought Along By Groom to Tie the Knot.

Bertram W. Peckham and Miss Jennie Maud Thayer were united in marriage at 2 o'clock yesterday afternoon at the home of the bride's parents, five miles northwest of Corcoran, in Kings county. The ceremony was performed by Rev. Duncan Wallace of this city, who accompanied the groom from this city yesterday morning. Mr. Peckham is a brother-in-law of H. Thorsvaldson, the latter and his wife and her brother, were present at the wedding, having been invited by the bride's parents.

After the ceremony a fine country dinner was served. The bride is a member of one of the best known families in Kings county, and is a very popular and charming young woman.

Mr. Peckham and bride returned to Fresno last night and will make their home here. Mr. Peckham is a harness maker employed by the United Harness Company.

CUPID WAS CHAUFFEUR FOR MERCED MOTORISTS. Couple Surprised Their Friends By Getting Married Here While on Automobile Trip.

Like the fellow in the song who asked "Lucie" to ride away with him in his automobile, V. H. Gerard, a well known real estate man of Merced, yesterday morning motored into town with Miss Florence Schofield and they were married yesterday afternoon at 3 o'clock at the residence of Rev. Dr. Thomas Boyd.

While not exactly an elopement, the auto trip and wedding was a great surprise to the friends and parents of the bride and groom. They left Merced at 8:30 o'clock yesterday morning in the machine, and as the couple have frequently motored together before, no one suspected that Cupid was acting as chauffeur when they took the road to Fresno.

Tomorrow they will go to Redley to visit W. R. Gerard, a brother of the groom, and on Friday or Saturday they will return to Merced. Mrs. Gerard is a daughter of A. H. Schofield, a Merced merchant.

A movement such as the Lincoln-Roosevelt league is the suggestion of the times and its appearance has been heartily approved to organize and crystallize the spirit of independence in politics and to end the power of the railroad and the domination of the political boss in both parties. The league hopes to move every man in the party to take an active interest in political affairs to purify them and return their grasp in the hands of the people.

Tri-Colony Club. As showing the interest in the county in the movement, W. A. Conn read a letter from Nat E. Kelly of Vineland colony telling of a proposition to form a tri-colony club of Barstow, Empire and Vineland and submitting a list of names of people who would support the organization.

E. J. Snow made a few remarks saying that he is in full accord with the movement and ready to assist it by every individual effort.

Money to Speak. A. M. Drew told of the coming visit next month of F. J. Heney, to address a meeting at the Barton theatre to give the local movement an impetus. The assemblyman further said that the league does not propose to usurp the functions of, or replace the Republican party but to be introduced as an adjunct for the maintenance of clean politics. One plank of the league platform can subvert the boss. It is that the Republican party shall not be dominated by the political machine of the Southern Pacific.

Mr. Drew told of his legislative experiences to say that every session during his terms as assemblyman, has been handed over to the creatures of the machine with instructions not to do anything without the consent or approval of the railroad. The time has come for the people to arise in might, subvert and smash the machine. That power was never so arrogant or dominant, he asserted, as it was in the last campaign and legislature and as it is now.

He referred to the state convention of four years ago when a cog of the wheel slipped and Pardee was nominated as against Gage and added that the one time when Pardee might have poisoned himself and given the railroad lobby a salutary check was when the Pardee-Flight senatorial contest in the legislature. The Lincoln-Roosevelt League is the first public and open attempt in the party to rid it of railroad bossism, stating also that the end may not be accomplished in one year or two years for the railroad domination is strongly entrenched and will make a fight to

NEW HAT AND WHISKEY LEAD TO MAN'S ARREST. Police on Lookout for Suspicious Characters Wearing Stolen "Stetson's."

A new Stetson hat and too much strong drink caused the arrest of A. J. Coleman by Policeman Finn last night.

On Tuesday a telephone message from Merced was received at police headquarters, to the effect that a store at that place had been burglarized and six new hats made by J. B. Stetson had been stolen. The sizes of the hats were given, and ever since every stranger in town with a new cowboy head covering has been under suspicion.

Now saw Coleman on the street last night in an intoxicated condition. He also saw that the man wore a new Stetson of fine quality and promptly took him to police headquarters. Coleman was hazy on all points and especially hazy as to where he got that hat. He admitted that he came here from Merced yesterday. He was booked for drunkenness.

UNION PAYS \$200 TO MOTHER OF DEAD MEMBER. Million's union, No. 1496, held a well attended meeting last night. Vice President Swift presided in the chair.

The secretary reported that a check for \$200 had been received from the general council of the United Brotherhood of Carpenters and Joiners of America, drawn in favor of the mother of Arthur Long, a member of the union, who died last month. Long had been a member but fourteen months, and the check represented the benefit to which the family of every member of a union affiliated with the brotherhood is entitled in case of death. Each member pays 70 cents per month toward this benefit fund, so that the total amount that Long had paid for this purpose was \$98.00.

Butchers' union met and transacted the usual routine business.

ALL SAINTS' DAY AT ST. JOHN'S CHURCH. Tomorrow, November 1st, is the feast of all saints and will be observed at St. John's Catholic church, corner of Mariposa and E streets, with special services. Masses will be celebrated at 7, 9 and 10:30 a. m., and an evening service will be held at 7:30 o'clock.

## WHITE MAN FOUND WITH BAGGAGE OF JAPANESE

J. Smith was arrested while acting in a suspicious manner near the Southern Pacific station last evening by Police-man Bradley. He had in his possession a small telescope bag containing several phrase books in English and Japanese, a tax receipt made out in the name of S. Yashumura and a number of letters addressed to the same name. As Smith could give no satisfactory account of how the bag came into his possession, he was held on suspicion.

## FRENCH FISHER SAVED OFF NEWFOUNDLAND

COPENHAGEN, Oct. 30.—The German tank steamer Deutschland, which has arrived in Copenhagen from Philadelphia, reports that on October 12th, while passing Newfoundland, a small open boat was observed floating at a distance. Through his telescope the captain saw a man lying on the craft. A lifeboat was sent out and the sailors brought the man on board the Deutschland. Apparently he was dead, but after twenty-four hours of hard work by the rescuers, the man opened his eyes.

He said his name was Francois Molard, that he was a fisherman, from Bretagne and that he belonged to the cutter Pacificque, which was fishing off the Newfoundland banks. On October 10th, in foggy weather, with high seas rolling, Molard was wrenched overboard. At the same time a big wave struck the small boat took back of the cutter and the rope broke. Molard managed to get into the little craft and floated away. On the third day he lost consciousness through hunger and cold. He was picked up three days later.

Chilean Banks Are Solid. NEW YORK, Oct. 30.—Word was received in South American banking quarters today to the effect that there is no foundation for the report of a South American bank failure.

Poor Way to Keep Young kidneys in a good healthy condition by neglecting them. Take K.E.R. Compound, the best kidney, bladder and rheumatic remedy. At Smith Bros' Drug Store.

OTTAWA, Oct. 30.—It is stated here that a strip of land six hundred feet wide and many miles in length will be transferred from Canada to the United States in Alaska as the result of the work by a survey in that country during the past summer.

The line of demarcation between the United States and Canada in the Far North is the 141st meridian, which starts from the coast at Mount Elias and crosses the Yukon river at a point 30 miles below Dawson.

FOUR MEN DEAD FROM DRINKING WOOD ALCOHOL THEY STOLE. TUCSON, Arizona, Oct. 30.—The bodies of four unknown men were found by a railroad track yesterday at Maricopa. Investigation showed that death had resulted from drinking wood alcohol stolen from a box car. One member of the party who claimed that he did not partake of any of the liquor and who was found near the scene was placed under arrest. He refused to give the names of the dead men. It is believed that the men are miners as one of them carried a union card from Globe, Arizona, made out in the name of Fitzpatrick.

## WILL GIVE CONCERT TO AID THE CHOIR

The choir of the Cumberland Presbyterian church is going to furnish the choir room in an up-to-date manner and is to buy a lot of new music, so that the musical part of the services this winter will be a feature. To accomplish both of these commendable things, the choir is going to give a concert in the church next Tuesday evening, and some of the best known local musicians will contribute to the success of the affair. Those who will contribute numbers are S. W. Mountz, who will be accompanied by Miss Jennie Knowles; Prof. A. R. J. Grapp, violinist, and Miss Muriel Whitman, piano soloist.

## CUMBERLAND LADIES WILL SEW ALL DAY

The Ladies Aid society of the Cumberland Presbyterian church will meet today at the church for an all-day sewing session. Luncheon will be served at noon. The ladies are reminded to bring scissors and thimbles.

## UNITED STATES GAINS STRIP OF LAND FROM CANADIAN BOUNDARY

OTTAWA, Oct. 30.—It is stated here that a strip of land six hundred feet wide and many miles in length will be transferred from Canada to the United States in Alaska as the result of the work by a survey in that country during the past summer.
